Senior Frontend Engineer with 10+ years of experience designing and developing scalable, responsive, and high-performance web applications. Specialized in React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, and SCSS with over 6 years of expertise in modern frontend development. Experienced in UI Architecture, Design Systems, reusable component libraries, frontend performance optimization, Core Web Vitals, accessibility (WCAG), and responsive design. Skilled at translating Figma designs into production-ready applications and leveraging AI tools including Cursor AI, Claude AI, and ChatGPT to improve engineering productivity.

Experience

Senior Software Engineer — Apollo 24|7

Nov 2020 – Present

- Developed scalable and responsive enterprise web applications using React.js, Next.js, JavaScript, TypeScript, HTML5, CSS3, and SCSS.
- Improved website performance by reducing page load time from 6 seconds to 3 seconds and achieving 90+ Lighthouse/PageSpeed scores.
- Optimized Core Web Vitals (LCP, CLS, FCP) using code splitting, lazy loading, image optimization, and rendering improvements.
- Designed and developed reusable UI components and shared component libraries to improve consistency, maintainability, and development efficiency.
- Worked with Product Managers, UX Designers, and Developers to build responsive, accessible (WCAG), and pixel-perfect user interfaces.
- Translated Figma designs into pixel-perfect, accessible, reusable React components following Design System principles.
- Used Cursor AI, Claude AI, and ChatGPT to improve coding, debugging, documentation, and development productivity.

Software Engineer — Builder.ai

Jun 2019 – Nov 2020

- Developed scalable Angular-based SaaS interfaces supporting cross-browser compatibility across large-scale user environments
- Engineered reusable frontend components and optimized SCSS architecture for maintainable UI systems
- Improved frontend performance by reducing DOM complexity and eliminating render-blocking resources

Software Engineer — Agan Technology (HCL)

Dec 2018 – Jun 2019

- Engineered UI for T-Mobile order management system
- Built Angular-based apps reusable UI components
- Integrated APIs and improved frontend architecture

UI/UX Developer — Satya Infosys (NSF India)

Jul 2018 – Dec 2018

- Designed UI wireframes and refined user experience, reducing usability issues and improving user journey flow
- Crafted responsive, pixel-perfect interfaces ensuring consistency across devices and screen sizes

Web Developer — Optimise Media Group

Jul 2017 – Feb 2018

- Developed responsive web pages, reducing page load time by 40% and improving mobile performance scores to 90+
- Ensured cross-browser compatibility

UI Developer — Nextspace Technologies

Jul 2014 – Jul 2017

- Translated design mockups into responsive, pixel-perfect web interfaces, ensuring consistency across devices

Core Expertise

UI Engineering • React.js • Next.js • Frontend Architecture • Design System Architecture • Component Libraries • Storybook • Figma to Code • Responsive Design • HTML5 • CSS3 • SCSS • Accessibility (WCAG) • Performance Optimization • Core Web Vitals • Technical SEO • Reusable UI Components

Skills

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3
Styling & UI: SCSS, CSS Modules, Bootstrap, Responsive UI, Design Systems
Architecture: Component-Driven Development, Reusable UI Libraries, REST API Integration
Performance: Core Web Vitals, Lazy Loading, Code Splitting, Accessibility (WCAG), Technical SEO
Tools & Workflow: Git, Webpack, Vite, Lighthouse, Figma, AI-Assisted Development (ChatGPT, Claude AI, Cursor AI)

Projects

Apollo 24|7 — Healthcare Platform

Tech Stack: React.js, Next.js, SCSS

- Improved Core Web Vitals and frontend performance at production scale
- Designed and developed reusable UI components integrated with scalable design systems
- Optimized rendering performance and reduced page load time

T-Mobile B2B Portal

Tech Stack: Angular (UI only), HTML5, SCSS

- Reduced enterprise application load time from 20s to 4s
- Diagnosed and resolved 80%+ frontend performance bottlenecks

Outstanding Contribution

Outstanding Contribution (06/2014 - 07/2017) - Nextspace Technology Pvt Ltd

Certificates

Arena Animation Academy (AAASP)
• Built responsive UI layouts using HTML5, CSS3, and JavaScript
• Developed real-world web interfaces following modern UI/UX practices
• Applied web standards, accessibility, and performance best practices.

Education

Bachelor of Computer Applications (BCA), IGNOU, 2008

Languages

Hindi (Native), English (Professional)
